

# Harry Jerome Community Recreation Centre Project

A VIBRANT SOCIAL HEART OF OUR COMMUNITY

PROJECT UPDATE MARCH 2024

## Executive Summary

The New Harry Jerome Community Recreation Centre Project and Silver Harbour Seniors' Activity Centre (HJCRC/SH) will deliver more than 18,580 sq.m. of inclusive and accessible community space when completed. This month, the next major milestone will be underway with the delivery and installation of structural steel. Once the structural steel installation begins, the building form will really start to take shape! Construction on concrete works, backfill, construction mock-ups, and mechanical and electrical rough-in work continues.

## International Women's Day - Women in Construction

The HJCRC / SH project is proud to have many women contributing in a variety of roles such as architects, engineers, project managers, tradespeople and more.

Through initiatives such as mentorship programs, scholarships and advocacy groups there are several efforts aimed at encouraging women to pursue careers in construction. These aim to address barriers that women often face in entering and advancing in the construction field, such as stereotypes, lack of representation and workplace culture.

Increasing diversity in construction brings varied perspectives and skills to the industry, ultimately leading to better outcomes for projects and organizations. Join us in celebrating and recognizing some key members of the HJCRC and SH Project Team.

Mariana Tanoni  
Senior Project Manager  
SBW General Contractor

Jahda Bowes  
Journeyman Carpenter  
SBW General Contractor

Patricia Wong  
Health and Safety Manager  
SBW General Contractor
