The Virtual Development Information Session was held in a Zoom Meeting on June 29, 2023 between 6pm and 8pm. The meeting was hosted by Robert Blaney Design Inc., who is also the applicant.

There were 2 neighbours who attended the meeting, one by video and the other called in by telephone. Robert Blaney went into further detail of the design and answered the questions from the residents who attended. Ms. Rasooli was also able to answer questions from the attendees.

During the Information Session, the residents/neighbours expressed their concerns with street parking. By adding more parked cars along the narrow street, it is difficult to pass oncoming traffic. Both residents were also concerned with their neighbourhood changing too much when it used to be a quaint street and is now becoming busier.

Robert Blaney explained this project has been designed to the OCP and Bylaw permitted building practices without any requested variances. He went on to say that whether it be a duplex with suites or the proposed rezoning, they all demand the same parking needs for two families living on each side. This project is providing 1 parking space per unit, which meets the requirements.

Robert Blaney explained his commitment to designing neighbourhood appropriate homes keeping the existing feeling of single family residences but with a modernised aesthetic. Smaller homes do not have to mean ugly. There are many gorgeous streets on the West and East end of Vancouver that boast beautiful rows of narrow homes.
